BLACKHAWK

Spotting Scopes

BARSKA's popular Blackhawk spotting scopes still set the standard for portability, optical performance and most important --- value. Our newest addition to this feature-packed series is a 20-60x60 model with an angled eyepiece. Like all Blackhawk spotters, this new model is at home at the target range, on birdwatching outings or on treks into the wilderness. Blackhawk spotter's multi-coated optics and large objective lens size delivers clear crisp views and their variable zoom magnification allows you to view your subject and magnify it for even closer examination. Every Blackhawk spotter is 100% waterproof as well as fogproof. Thoughtful features like a glare-reducing sunshade and sighting tube are also available on selected models. No matter which Blackhawk spotter you choose you can rely on quality and performance that will enhance your viewing experiences. Most models include tripod and carrying case. Blackhawk spotters are backed by BARSKA's Limited Lifetime Warranty.

20-60x70 WP
AD10528

Includes: Soft carrying case, premium hard case and panhead lever tripod
