

## ILLUMINATED MAGNIFIER 4x, 65mm LED

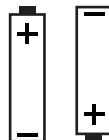

5 bright white LED lights,  
1 UV light

**CAUTION: DIRECTLY VIEWING THE SUN OR ANY LIGHT SOURCE WITH THIS OPTICAL DEVICE CAN CAUSE PERMANENT EYE DAMAGE.**

Looking at or near the sun will cause instant and irreversible damage to your eyes. Eye damage is often painless, so there is no warning to the observer that damage has occurred until it is too late. Do not look at the sun through the magnifying glass. Children should always have adult supervision while observing.

### **Inserting Batteries**

1. Slide off the battery compartment lid by gently sliding the cover of the battery down
2. Insert AAA alkaline batteries (not included), as pictured
3. Replace the battery compartment lid by sliding lid back on, until it snaps shut

### **Turning the Magnifier On/Off**

1. After properly inserting the 2 AAA alkaline batteries; slide up the on/off switch located on the top of the magnifier

ON = Slide switch up to turn on the 5 LED White Lights

OFF = Slide switch to center to turn the lights off

UV = Slide switch down to turn UV light on

UV light may reveal markings on some currency such as:  
watermarks, security threads and or holograms

2. Slide switch to center to turn the lights off

### **Using the Magnifier**

1. Remove both pieces of protective lens film from magnifier lens
2. Grasp the handle of the magnifier, adjust focus by lifting and lowering the magnifier

### **Care and Cleaning**

- To remove any dirt or fingerprints, wipe lens with a soft cloth
- Store in a cool dry place unexposed to moisture
- Always handle magnifier with care, avoid dropping magnifier as it may get damaged
